Next View Software Named to Food Logistics FL100 List

Orange, CA – Next View Software, an innovative provider of on-demand Supply Chain Productivity software solutions, announced today that it has been named to the Food Logistics **FL100** list of leading technology providers for the food, beverage and CPG industries.

Steve Simmerman, Business Development leader for Next View Software, says, “We are honored to be recognized by Food Logistics and to be named to this very impressive list of technology providers. Next View’s industry leading on-demand Labor Management and Warehouse Management solutions help food, beverage and CPG companies reduce costs, improve efficiencies and improve their overall supply chain operations. Food Logistics is a valuable industry resource for many of our customers and we appreciate being named to the **FL100**.”

The **FL100** is a listing of technology solution and service providers that are helping food, beverage and CPG companies gain a competitive logistical advantage. Our goal with the **FL100** is to highlight a broad range of technology solutions and services that are targeted at the food industry, addressing the needs of companies of varying sizes that make up the food supply chain.

Next View Software is revolutionizing the way that supply chain practitioners use technology to continually improve their supply chain management and productivity. Next View’s on-demand Labor Management and Warehouse Management solutions deliver first-rate functionality built upon years of experience. Next View’s on-demand, subscription-based software model delivers an excellent total cost of ownership for clients.
